

EXPLORATORY TESTING NOTES

Session Details

Parameter	Value
Application	SauceDemo
Tester	Vaishnavi
Session Type	Exploratory Testing
Duration	60 Minutes
Browser	Chrome

Areas Explored

- Login functionality
- Product sorting
- Cart operations
- Checkout flow
- Session handling

Scenarios Explored

Login Module

- Tested login with valid credentials
- Tested login with invalid credentials
- Tested empty username/password
- Tested special characters in username field
- Tested multiple rapid clicks on login button

Products Module

- Tested Add to Cart functionality
- Tested sorting filters
- Tested browser refresh on products page
- Tested cart badge updates

Cart Module

- Tested removing products from cart
- Tested cart persistence after refresh
- Tested checkout navigation

Checkout Module

- Tested checkout with valid details
- Tested empty mandatory fields
- Tested special characters in checkout fields

Observations

- Login validations working correctly
- Cart updates reflected properly
- Checkout validation messages displayed correctly
- Session remained active after browser refresh

Defects Observed

Bug ID	Description	Severity	Status
BUG_001	Error message alignment issue on login page	Low	Open
BUG_002	Cart badge delay after adding product	Medium	Open

Recommendations

- Improve UI alignment for validation messages
- Optimize cart badge update response time
- Add stronger field validations
