BUG-001 — Login Button Enabled with Only Password Filled

Description: The login button becomes enabled even if the username field is empty.

Environment: Chrome, Windows 10

Steps to Reproduce:

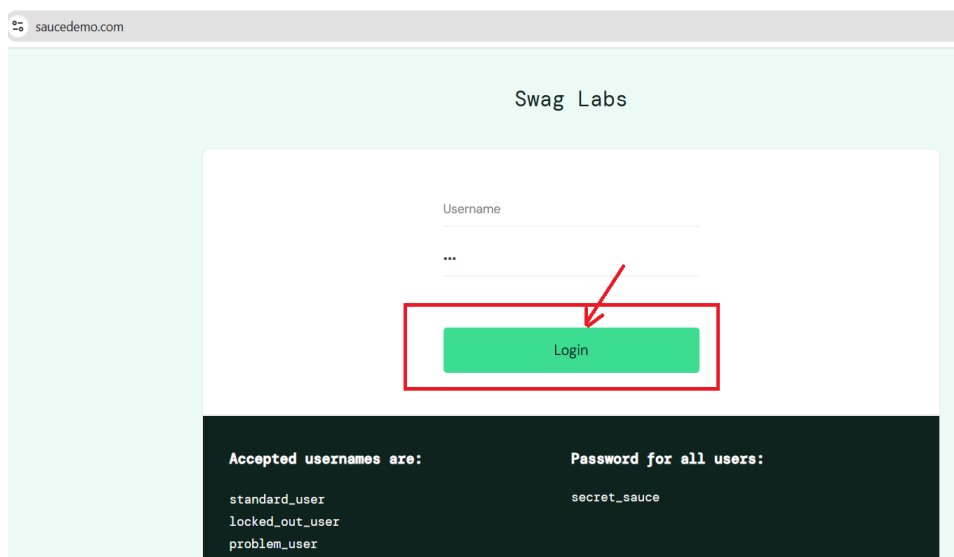

1. Open <https://www.saucedemo.com/>
2. Leave *Username* empty
3. Enter any text in *Password*
4. Observe the *Login* button

Expected Result: Login button should be disabled until both Username and Password are filled.]

Actual Result: Login button becomes enabled even with an empty username field.

Severity: Medium

Attachment:

BUG-002 — Generic Login Error Message

Description: The error message on login failure is not specific and does not indicate which field (username or password) is incorrect.

Environment: Chrome, Windows 10

Steps to Reproduce:

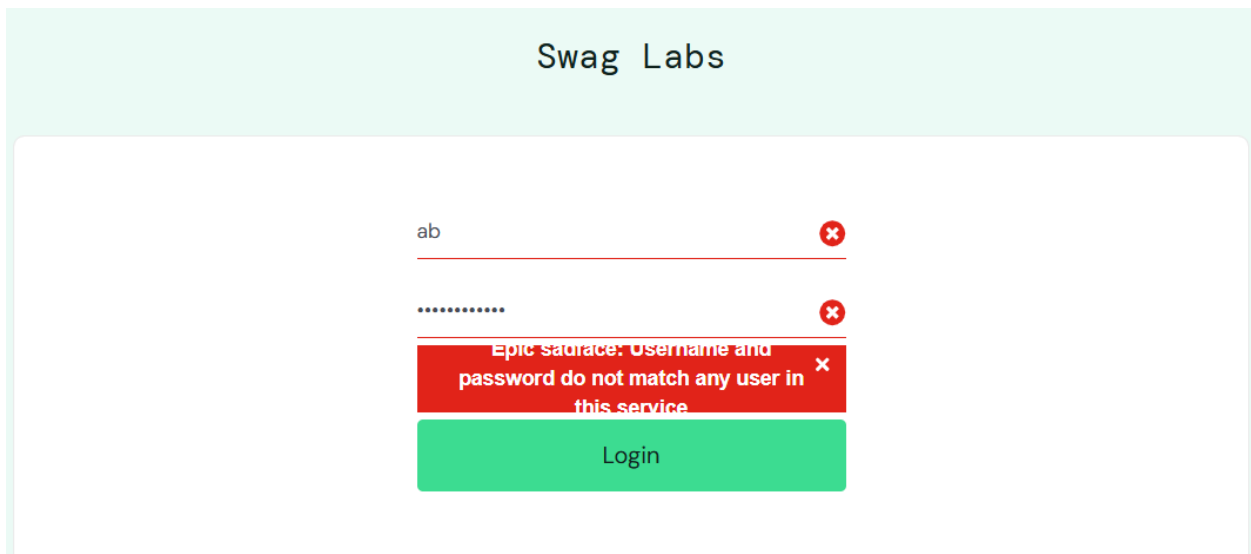

1. Open <https://www.saucedemo.com/>
2. Enter invalid username or password
3. Click *Login*

Expected Result: Error should specify exact issue (e.g., “Username is incorrect”).

Actual Result: Generic message shown: “Username and password do not match any user in this service”

Severity: Medium

Attachment :

BUG-003 — Product Sorting Doesn't Rearrange Items Correctly

Description: Sorting products by Name (A to Z) may not update the list correctly.

Environment: Chrome, Windows 10

Steps to Reproduce:

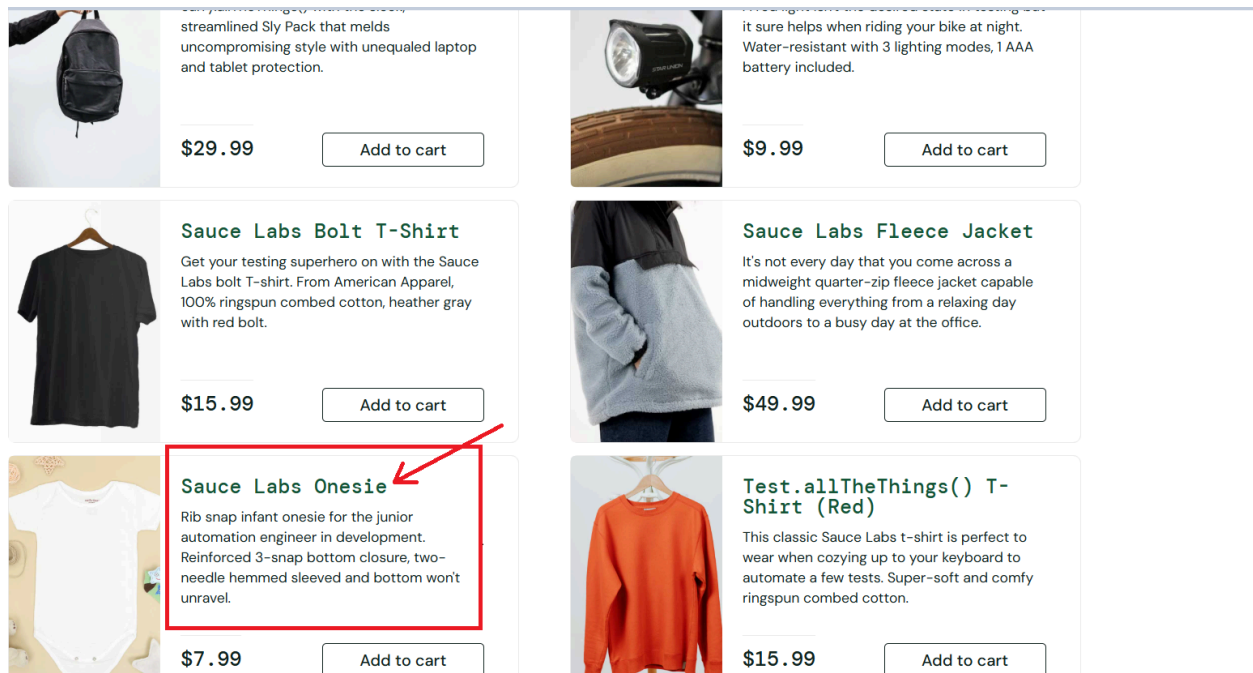

1. Login with standard_user
2. On inventory page, click sort dropdown → *Name (A to Z)*

Expected Result: Products reorder alphabetically from A to Z.

Actual Result: Items remain unsorted or incorrect order shown

Severity: Medium

Attachment:

BUG-004 — Cart Badge Count Delayed or Incorrect

Description: After adding item to cart, cart badge count does not always update immediately.

Environment: Chrome, Windows 10

Steps to Reproduce:

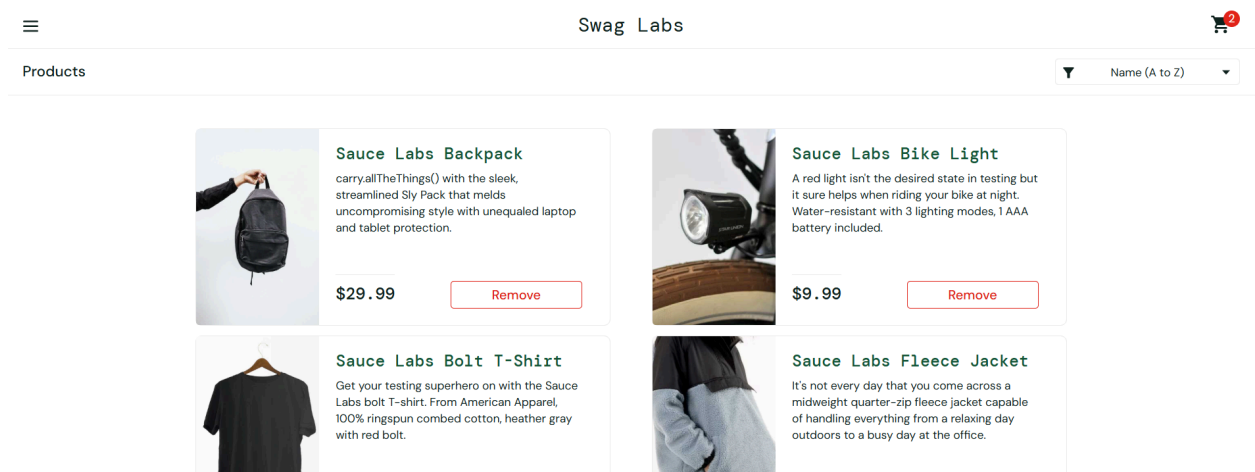

1. Login with valid credentials
2. Add a product (e.g., Sauce Labs Backpack)

Expected Result: Cart badge shows correct item count instantly.

Actual Result: Cart badge count is delayed or not updated properly.

Severity: Low

Attachment:

BUG-005 — Images or Item Details Not Clickable/Linked

Description: Some product images or names do not navigate to a detailed view when clicked.

Environment: Chrome, Windows 10

Steps to Reproduce:

1. Login with standard_user
2. On inventory page, click on a product *image* or *name*

Expected Result: Navigates to product detail page.

Actual Result: No navigation occurs; UI stays on inventory page.

Severity: Low
