

MINI TEST PLAN

Project Name

SauceDemo Web Application Testing

Objective

To validate the core functionality, usability, and stability of the SauceDemo application through manual testing.

Scope of Testing

The following modules will be tested:

- Login
- Products
- Cart
- Checkout
- Logout

Testing Types

The following testing types will be performed:

- Functional Testing
- Smoke Testing
- Regression Testing
- UI Testing
- Exploratory Testing

Test Environment

Parameter	Value
Application URL	https://www.saucedemo.com
Browser	Chrome
Operating System	Windows 10
Test Type	Manual Testing

Test Data

Username	Password
standard_user	secret_sauce
locked_out_user	secret_sauce
problem_user	secret_sauce

Entry Criteria

- Application should be accessible
- Test environment should be stable
- Test data should be available

Exit Criteria

- All high-priority test cases executed
- Critical defects reported
- Smoke testing completed successfully

Deliverables

- Test Cases
- Bug Reports
- RTM Document
- Exploratory Testing Notes
- Test Summary Report

Risks

- Environment downtime
- Test data issues
- Browser compatibility issues

Tools Used

- Jira
- Google Sheets
- GitHub
